Subject: % land protected

Hi Phil,

Based on a review comment, I thought it might be useful to know % of land protected (and thus not open to mining) at our Scales 1 and 2 (Bristol Bay overall & N/K watersheds). Based on the parks/refuges/preserves currently shown on the map, it looks like protected areas would include Togiak NWR, Wood-Tikchik SP, Lake Clark NP, Katmai Nat'l Preserve, and Becharof NWR, along with some smaller parcels in the Ugashik watershed.

2 questions for you: (1) is it true to say that these areas cannot be mined? (2) Are there any other areas that should be added as protected?

Thanks! Kate
